
DESCRIPTION

Whirlpool and Jacuzzi Bath Cleaner

Whirlpool Bath Cleaning Fluid

1 x 500ml Whirlpool Jacuzzi Spa Bath Cleaner

Up to 16 week supply

Simple to use :-

Fill the bath with cold water

Pour approx 100ml of cleaner into the water and turn the whirlpool system on, turn the air valve off to reduce the amount of bubbles

Run for 10 minutes and ventilate the room

Any pipe work residue will be visible in the water

Empty the bath and refill and then rinse

Cleans & degrease's the bath & whirlpool pipe work keeping them fresh

If this is the first time you have cleaned your whirlpool bath properly you may need to apply more than 100ml and repeat the process several times

Regular use will prolong pump life with proper use

Tried and tested product
