

## DESCRIPTION

### Carron Celsius Duo Whirlpool Bath 57.0061

If you're on the lookout for the ultimate whirlpool bath experience, you've found it in the **Carron Celsius Duo**.

Lovingly crafted to a meticulous finish, this premium-quality whirlpool bath is the perfect focal point for any bathroom. Luxuriously deep and wide, the Carron Celsius Duo is designed for either one person or two: the choice is yours.

With flat-jet technology built right in, this whirlpool bath actually includes two independent 13-jet systems. This means that each bather benefits from an individual lumbar and plantar massage which can be customised to their particular needs. In addition, both systems in the Carron Celsius Duo include independent on/off switches and fine-grain air control to adjust the flow of water anytime - all powered by two 1.0 horsepower motors. How's that for a luxury bathing experience?

If you're looking for the largest, most luxurious whirlpool bath we stock here at *The Whirlpool Bath Shop*, it doesn't get any better than the Carron Celsius Duo. So what are you waiting for?

*All of our Celsius whirlpool baths are constructed using Carron's patented Carronite shell. Additional upgrades, such as lighting or extra jets, are also available - simply contact us for a free quotation.*

### Specification

Carron Celsius Duo 2000mm x 1400mm x 480mm (internal)

Carronite shell finish  
1.0 horsepower pump x 2  
Flush controls x 4  
Flush safety suction x 2  
Flush whirlpool jets x 26  
580-litre capacity  
Suitable for built-in application only. Panels not available.

### Options

Any of the lighting systems we offer at The Whirlpool Bath Shop can be added to the Carron Celsius Duo whirlpool bath. Due to the size of this model, we'd recommend the *Multi-Mood Lighting* option. Additional jets can also be added, so please get in touch to discuss your options.

Once again due to the size of this whirlpool bath, a standard bath waste would be too small to fit. Carron offers a specific Celsius waste which you can Select Above. if necessary.

### Warranty

30-year shell  
10-year pipework  
2-year electronics

### **Delivery**

This item is normally delivered in 5 - 10 working days; however, this may vary on this model. If your order is time-sensitive, please get in touch via one of the methods listed below.
