
DESCRIPTION

10 Jet Air Spa Upgrade

10 Jet Air Spa System fully fitted - Chrome Jets - 750 Watt Heated Blower

An Air spa system consists of Air Jets fitted on the floor of the bath, controlled with a separate on/off button. This provides an interesting addition to the traditional side jets. An air spa can be a luxury accompaniment to your whirlpool bath enhancing your hydrotherapy experience.

Please note, heated blowers do not heat the water, they ensure that the air that is blown into the bath is heated.

Your Purchase includes

10 Jet Air Spa System fully fitted and water tested
Jets & Control finished in chrome to match the whirlpool jets
750 Watt warm air blower fully fitted
All pipe work is included and fully fitted
1 On / Off control in Chrome

Options

1. You can purchase this as an upgrade to your chosen whirlpool bath. The system will then be fully fitted and tested to your bath before delivery. Click buy it now and proceed to the checkout.
2. You could send your bath to our factory to have the jets fitted. Once you have purchased this item, please contact us to arrange fitting. Other charges may apply such as handling and re delivery.
3. We can send an engineer to your property to fit the spa system to your bath, the standard price for fitting is £179.99 Inc Vat. Highlands & Wales incur at £40 surcharge. You will need to arrange for the panel/s to be removed before the engineer arrives and also provide a power source. Because of part P building regulations our engineer is only allowed to test the system, you will need to arrange for an electrician to make the final connection to your household supply. Please contact us after or before you make a purchase to arrange an engineers visit.
