If you want to take advantage of the low price on this bath by adding some upgrades then their are plenty are available.

Why not add some underwater lighting or add a 16 jet spa system.

All upgrades are fully fitted and tested before the bath is dispatched to you.

#### **Bath & System Specification**

In these days when components are made all over the world and of uncertain quality, we have a policy of only purchasing pumps and components manufactured in Britain.

These are sourced exclusively from Spatec, the biggest UK manufacturer who have been manufacturing in the UK for 25 years. All products conform to to the latest regulations British Standards, TUV and CE. In our 19 years of manufacturing whirlpool baths we like the ease and comfort of talking to a British supplier who is on hand readily in the unlikely event of a problem. A team of UK based engineers are on hand if required.

**Please note that if you order extra jets or lighting then the delivery time will be extended slightly.**
