
DESCRIPTION

Quartz Digital Bath Filler with Overflow Filling System

Aqualisa Quartz Digital Bath Filler with Digital Control

Please note: the standard version is for High-Pressure systems such as a combi boiler. The pumped version is for Low Pressure or gravity fed systems.

Install the Aqualisa Quartz Digital Bath Filler with Digital Control and never have to worry about fumbling with the hot and cold water taps again. You can set the digital control to fill the bath while you get towels or anything else you need for a relaxing soak. This kit comes with a digital thermostatic overflow filler, quartz control, digital processor, waste, and fixings.

All you have to do to fill your bath is press the start/stop control and wait. The LED display lets you know the temperature of the water so you can be comfortable. This digital bath filler is compatible with all plumbing systems, and it comes with a five-year manufacturer's guarantee. You will always enjoy a relaxing bath thanks to the thermostatic temperature control and convenient bath filling system.

Delivery
