

Fiddlers Elbow Grease

CBD Vape Eliquid - 20mg/2ml Trial Size

Handy trial size available in 5 terpene profiles (see Compare):
Select the profile from the drop down list below and add to basket.

Why not try all 5 with our special trial pack? - [click here](#)

MCT is incredibly versatile diluent - 100% natural MCT (medium-chain triglyceride) is one of the healthiest essential fatty acids available on the market and can increase the bioavailability of the cannabinoids and terpenes present in a product. It's colourless and tasteless which means it won't affect the taste of your e-liquid. Particularly important when terpenes are present, allowing you to appreciate all the subtle nuances of the flavours and aromas.

Guaranteed content - we have 3rd party independent lab reports available for your security and peace of mind.

Not to be used by or sold to anyone under the age of 18
