for the Yaesu FT-710

## Programming software and usb cable for the yaesu ft- 710.

**£34.96**

### DESCRIPTION

Programming Software and USB Cable for the Yaesu FT-710, RT Systems YPS-FT710 Programming software makes it easy to manage memory channel information and other menu settings of the Yaesu FT-710. Spreadsheet layout with many point-and-click options. "Read" the current configuration from the radio for editing or start from scratch in a new file. The programmer has to copy and paste memory channel information between files. Column editing for changing several channels with minimal typing. An easy interface to RFinder-Worldwide Repeater Directory, Radio Reference, or Repeater Book to get repeater information for your location, a travel route, or a vacation spot. Repeater details are available for locations in and outside the US. (separate purchase or subscription may be required) Other built-in frequency lists for easy memory channel entries (check File|External data in the programmer before you spend time on internet searches for frequencies. You may find just what you need!) Ability to copy and paste spreadsheet or website data. Much more than just memory channel programming with settings for other radio menu items. The software is compatible with Windows 8/8.1 (full versions), Windows 10 (both 32-bit and 64-bit), and Windows 11.
