Our **Automatic Calendar Clock** uses a quartz crystal & an individually tuned German Movement to ensure it displays an accurate time, with accuracy of less than 1 second per month.

The day & date is controlled by a world-wide patented Automatic Calendar that adjusts itself for all irregular months and leap years.

- The large letters are 25mm tall and have a readability of up to 12m, perfect for people with limited sight
- Clear view acrylic glass cover
- Comes with a screw for easy wall-mounting

This clock is very effective when used around the home as a helpful memory aid for anybody suffering from Alzheimer's or Dementia.

Due to its large size this clock can also be used effectively in care homes or community areas.
