Scentscape - In The Garden has been designed with and for people with cognitive loss and is a multi-sensory activity for people in mid to late stage dementia.

- Play the CD (included) whilst smelling the scents for a unique activity designed to evoke memories
- Each Scentscape comes with three scents, three smelling jars, and a 30 minute CD with themed sounds
- The CD includes sounds relevant to the Scentscape and is also split into 3 sections, which relate to the three scents included
- Infection control compliant

The Scentscape is an innovative and unique sensory product that can be used by individuals, or as a group exercise.

How Scentscapes Work

Scentscapes were designed to offer somebody both sound and scents of various popular experiences.

Our research showed these to be powerful tools to help transport people to a time or place, stimulating memories and conversation and helping to access memories that would otherwise have been difficult to reach.

In the Garden

The Garden Scentscape has been designed to stimulate memories of gardening at home and days spent out in the fresh air.

The scents are fresh grass, Rose and Geranium, and Honeysuckle to invoke memories of sunny afternoons spent in the garden, invigorating the senses and create a feeling of calm.

Contents (per Scentscape)

- 3 x scents
- 3 x smelling jars
- 1 x 30 minute CD
