Our **Creative Scenes Puzzle - The Tool Shed** enable people to create their own scene using a set of magnetic pieces, each can be placed anywhere on the background board.

- Designed for people with cognitive loss who can no longer do our 13 piece jigsaw puzzles
- Creative Scenes offers the same sense of achievement, without the chance of getting it wrong
- Durable plastic, easy to clean, and also meets infection control standards

Each Creative Scene has beautifully illustrated content, commissioned to ensure they are reminiscent of the appropriate era so people can relate to them and start conversations.

The Tool Shed

Building something new, or mending something old, gave people independence and valuable experience.

The DIY movement increased in popularity after WWII as home ownership was rising, tradesmen were expensive, servants were gone, and the housing stock decaying. Ordinary people wanted to learn DIY because they now needed to do the work themselves.

Some example questions for The Tool Shed Creative Scenes Puzzle are below;

- What does this tool shed remind you of?
- How do you use each of the tools?
- Tell me about the type of things you would build or mend with your tools

How it works

After discovering that as people's dementia progresses they struggle to pick puzzle pieces up and place them in the correct place, which caused frustration. Creative Scenes were designed to have no wrong answer, whilst still giving that same sense of achievement.

- Create your own tool shed using a set of magnetic pieces
- Each magnetic tool can be picked up and placed on the background wherever they choose
