**Price:** £34.99 incl. VAT

**Date:** 06/12/2019

**VAT Relief Eligible:** Yes (£29.16 with VAT relief)

**Delivery:** £3.95 incl. VAT per order

The Bedi Shield is a specialised mouth prop that allows home carers & health professionals to clean or examine the teeth of those in their care.

- Safe & hygienic method of inspecting the mouth
- Washes easily with water & soap
- Protects care-givers finger from involuntary biting
- Care recipient can rest teeth on Bedi-Shield, reducing jaw ache & discomfort
- Made from a strong plastic core with an elastomer overmould

The Bedi Shield is a useful bathroom care product for people with dementia, autism, complex care needs, or any form of cognitive loss & memory impairment.

### Problems with oral care without Bedi Shield

- An individual with cognitive loss (such as dementia), may bite the care-giver
- Opening the mouth wide to prevent biting can cause jaw discomfort to the care recipient
- A finger directly in the mouth is unhygienic for both care-giver & recipient

### How to use

1. Insert finger into Bedi Shield
2. Insert the Bedi Shield into one side of the recipients mouth, resting between their teeth
3. Whilst the shield is maintaining an open mouth you can inspect the recipient, clean the teeth or gums, or apply fluoride varnish

### Contents

- The Bedi Shield comes in a box of 12
- Each single shield lasts for 2 week

Each Bedi Shield purchased is 24 weeks supply for an individual.
