The **One Button Digital DAB Radio** was specifically designed for people with Alzheimer's & dementia and is also the perfect radio for elderly individuals who may find technology confusing.

- Headphone socket for private use
- Large loudspeaker on the front of radio
- DAB/DAB+ radio ensures crystal clear reception

The simple DAB radio is best configured by a carer or loved one, leaving the individual listener with a one button radio that's very easy-to-use.

Many of the features make this a perfect one button radio for dementia, people with impaired memory, or for use around a care-home.

Contents

The One Button Radio comes in two parts:

1. A high-quality digital radio
2. A secure cover

Usage

The secure cover can be removed and advanced functions can be programmed, such as station choice and volume. The cover can then be reattached leaving only a single button that turns the radio on/off for ease of use.

Important: UK Coverage Warning

Please be aware that only 90% of the UK is currently covered by DAB signals. You can check whether your area is covered by visiting this website & entering your full postcode: <http://www.ukdigitalradio.com/>
