The **One Button Radio** is an innovative AM/FM radio that's been designed for people with memory problems, poor coordination, dexterity issues, partial sight, or anyone who may find modern radios confusing.

- Beautiful looking, & solidly built, wooden retro design
- Auxiliary input allows music to be played through a phone, MP3 player, or other compatible devices
- Music can also be played from a USB device such as a memory stick (see below for more info)
- Powered by mains adapter (included) or 6 x C batteries (not included)
- 295 x 150 x 180mm (L x W x H)

The Simple One-Button Retro Radio has many great features, but more importantly, it remains extremely simple to operate for anyone with cognitive loss or memory impairment.

Set-Up & Usage Instructions

1. Attach control dials (supplied) to the radio, & tune the required volume & radio station
2. Remove control dials & store in rear compartment
3. Magnetic cover slots neatly into the front of the radio & will hide the control panel
4. The radio can then be turned on & off using the button on the top of the radio

Playing Music on a USB Device

The One Button Retro Radio can also be used to play music that's stored on a USB device, such as a memory stick:

1. Plug the USB device into the front control panel
2. Your USB device will automatically override the AM/FM radio, and your music will begin to play
3. Use the *pause*, *next*, & *previous* controls to listen to your music
4. Remove your USB stick to default back to using the AM/FM radio

Please note: when playing music through a USB device the front cover cannot be attached to the control panel.

Who is this radio suitable for?

- The simplicity makes it a superb choice as a radio for elderly individuals who find technology confusing
- Also suitable as a radio for the blind
- Anyone with dementia, Alzheimer's, or any form of cognitive loss

International Customers

Unfortunately, this radio is not currently available to customers outside of Europe, we're sorry for any inconvenience caused.
