The **Flipper Big Button Remote Control** is AlzProduct's recommended remote control, we believe it to be the best simple television remote control available in the UK.

- Only 6 key buttons; On/Off, Channel up, Channel down, Volume up, Volume down, and mute
- Large tactile buttons for ease-of-use
- Unique Favourites Function; save up to 25 channels to the remote control, perfect for Sky/Virgin users
- Comes with almost 1000 codes for all major television and set-top box brands; usually set-up within seconds
- Lock Feature; stops accidental reprogramming of remote control

### Dual-Function Feature

The Dual-Function feature allows you to turn **both** your television and Freeview/Sky/Virgin boxes on/off using just the Flipper.

This removes the need for 2 remote controls and can help reduce confusion.

### Favourites Feature

One of the best features of the Flipper remote control is the ability to set-up a favourites list:

- Choose from between 2-25 channels on your television or set-top box (including Sky and Virgin)
- Simply cycle through these channels, missing all other channels in the process
- Can reduce digital television, Freeview, Sky, or Virgin, into fewer and more manageable channels

A common problem for many of our customers is that they accidentally end up on a channel they do not recognise and cannot find their way back to familiar channels, the favourites feature eliminates this issue.

### Compatibility

The Flipper big button universal remote has the highest compatibility out of all universal remote controls that we've used in the UK, and is compatible with the following types of devices:

- Televisions (including built-in Freeview)
- Television and set-top box combinations
- Compatible with Virgin, Sky and nearly all other set-top boxes

*A set-top box is any external device that is plugged into your television that provides your television channels, such as Freeview, YouView, or a Sky or Virgin box.*

### AlzProducts Compatibility Guarantee

The Flipper Big Button Remote Control is protected by our Compatibility Guarantee.

This means that if your remote control is incompatible with your television or set-top box, we will offer you a full refund for your order, including the £3.99 original delivery charge.

**International Customers:** Our AlzProducts Compatibility Guarantee is for UK and Ireland customers only. We are happy to provide a product only refund for international customers if they return the Flipper to us.

## Code List - Set-Top Box Programming Codes

The Flipper instructions come with programming codes for the brands of set-top boxes that are shown in the table below.

**Important:** These codes are used as the quickest method to program the Flipper and if your set-top box is not listed here it **does not** mean your set-top box is incompatible with the Flipper; it simply means that you will have to manually program your set-top box.
