Our **Toilet Sign for Dementia** is the most popular sign in our range, and can help with orientation whilst also increasing independence.

The toilet sign for dementia can be used in a domiciliary setting, in care homes, or in hospitals.

Types of Signage - Explained

All signs have inherent anti-fungal & anti-bacterial qualities & may be cleaned safely with most non-abrasive chemical cleaners.

Budget Self-Adhesive

- Only recommended for smooth indoor surfaces
- Best-suited for use around the home or in a domiciliary setting
- Not recommended for care homes, public buildings, hospitals, or any other high use areas

Self-Adhesive Signs

- Only recommended for smooth indoor surfaces
- Best-suited for use around the home or in a similar domiciliary setting
- Cost-effective solution
- Quick & easy to apply with a strong adhesive to ensure a long lasting application

For care homes, local authorities, & NHS customers we would recommend our Standard or Hygenus signs instead of self-adhesive, due to their higher durability & longer life when used in busy environments.

Budget Fixed

- 3mm thick and available only in 300mm
- Cost-effective alternative to our Standard Fixed signs

Standard Fixed

- 12mm thick with secure & hidden fixings
- Robust, hard-wearing, & can be moved if required (unlike self-adhesive)

Hygenus Signs

Designed for hospitals & other buildings where infection control is the highest priority:

- 5mm thick & made of a solid & completely non-porous material
- Resistant to most chemical cleaners & has anti-fungal & anti-bacterial growth properties
- Face-fixed providing highest security
