### Types of Signage - Explained

### Self-Adhesive Signs

- Best-suited for use around the home or in a similar domiciliary setting
- Cost-effective solution that's suitable for flat surfaces only
- Quick & easy to apply with a strong adhesive to ensure a long lasting application

For care homes, local authorities, & NHS customers we would recommend our Standard or Hygenus signs instead of self-adhesive, due to their higher durability & longer life when used in busy environments.

### Budget Fixed

- 3mm thick and available only in 300mm
- Cost-effective alternative to our Standard Fixed signs

### Standard Fixed

- 12mm thick with secure & hidden fixings
- Robust, hard-wearing, & can be moved if required (unlike self-adhesive)

### Hygenus Signs

Designed for hospitals & other buildings where infection control is the highest priority:

- 5mm thick & made of a solid & completely non-porous material
- Resistant to most chemical cleaners & has anti-fungal & anti-bacterial growth properties
- Face-fixed providing highest security
