Code: GS-GP1123B

Price: £149.99 incl. VAT

Date: 14/11/2019

VAT Relief Eligible: Yes

Delivery: £3.95 incl. VAT per order

The **Large Radio Controlled Digital Day Clock** is a wall-mountable clock that shows the day + period of day, and/or full calendar information.

- Large size ensures high visibility - 29 x 44 x 4cm
- Completely automatic calendar & radio controlled accuracy ensures the time & date will always be correct, including irregular months, leap years, and daylight savings
- Battery powered (included) - no power cables required
- Wall-mountable only (screw not included)

The features of the Large Radio Controlled Digital Day Clock make it ideal for care homes, hospitals, waiting rooms, or any other communal area.

Alternating Displays

This mode alternates between display mode 1 & display mode 2, at intervals of 15 seconds.

The unique alternating display can be useful in care homes, hospitals, or any other area that's shared by both carers, and individuals with memory impairment.

Radio Controlled Accuracy + Automatic Calendar

If the Large Radio Controlled Digital Day Clock has radio signal, it will never require manually adjusting for irregular months, leap years, or daylight savings.

This is due to its combination of a completely automatic calendar, and radio controlled time accuracy, a unique mix in our digital clock range.
