Our **No-Rinse Shampoo & Conditioner Caps** can be a great way to wash & condition the hair without needing water.

Each cap contains generous amounts of shampoo & conditioner and is simple to apply.

This product is very popular with a whole host of people:

- Medical staff
- Mobile hairdressers
- Campers & hikers
- Care workers

From an Alzheimer's & Dementia perspective caps such as these, or our Waterless Shampoo, can be very useful in helping to maintain hair hygiene in individuals where a fear of water being poured over the head/hair is common.

How to use

1. Apply cap onto head, ensuring it covers all hair
2. Massage the cap thoroughly until the hair feels saturated
3. Remove the cap & towel dry the hair, towel drying is important as this is what removes the grease/dirt from the hair, as water is not being used

The caps can also be microwaved before use, to add a heated, & possibly therapeutic, element to the cap massage.
