Price: £23.99 incl. VAT

Date: 06/05/2021

VAT Relief Eligible: No

Delivery: £3.95 incl. VAT per order

The **Memo Minder Motion Activated Voice Reminder** is a wall mounted infrared device that can be placed anywhere in the home, although it's most practical use is by the front door.

- Record your own message and when the PIR motion sensor detects movement your message will be played
- High-quality audio recording up to 20 seconds in length
- Message can be rerecorded, allowing for new messages and reminders to be played
- Detection range of 5m and a 30° angle

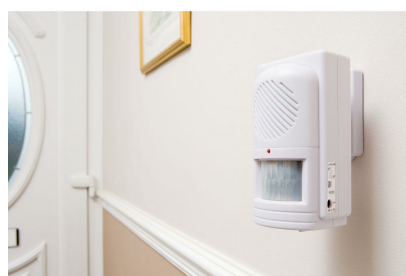

A popular example is to leave a reassuring message warning a loved one not to leave the house if it is dark, or to remember their keys, wallet, and phone if they are leaving the house.

Timed Wander Reminder

One of the main disadvantages of a motion activated memo reminder PIR (such as the Memo Minder) is that it can be triggered 24 hours a day. This restricts the ability to only play the message during a specific part of the day, such as at night.

Our Timed Wander Reminder provides all of the necessary equipment to use the Memo Minder on a timer.
