The **Talking Photo Album - Standard** is an innovative and enjoyable reminiscence aid for individuals with dementia, Alzheimer's, or any form of cognitive loss.

- Simple to set up and record
- 20 pictures and 20 corresponding audio message
- Maximum of 18 seconds recording per page
- Audio clips activated at the touch of a play/stop button
- Requires 3 x AAA batteries (not included)
- Audio clips can be 'locked' after recording so they cannot be deleted or recorded over accidentally

The Talking Photo Album allows someone with impaired memory to hear pre-recorded audio messages from family or friends alongside a collection of personal photographs.

### Pages & Photographs

- 20 pages in a 'flip style' album
- Each page will hold a single 5 x 7" photo or image (125 x 175mm)

### Recording & Playback

- Built-in speaker and microphone
- Record a separate voice message on each page using the built-in microphone
- Total recording time of 6 minutes
- Re-record as many times as necessary
- Maximum of 18 seconds per page (more available in Deluxe version)
- Each page has its own play/stop button

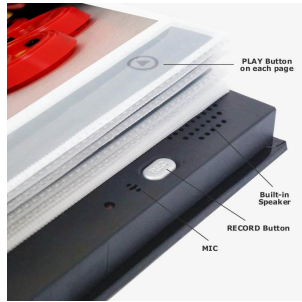

### Uses

- Stimulating memories
- Reminiscence therapy
- Photographs of family, friends, holidays and special events
- Remember important information
- Prepare emergency contacts
- Medication management
- Organize appointments
- Create audio/visual procedures
- Diary event schedules
- Create a talking CD or DVD holder

### Power & Batteries

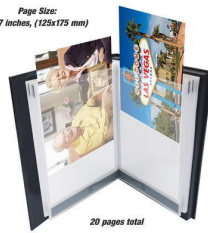

- Requires 3 x AAA batteries (not included)
- Recordings are preserved forever, even when batteries are replaced

## Additional Images

*Insert a Photograph or image into the clear wallet on each page.*

*Page Size:  
5x7 inches, (125x175 mm)*
