Code: 100379

Price: £59.99 incl. VAT

Date: 03/08/2020

VAT Relief Eligible: No

Delivery: £3.95 incl. VAT per order

Our **Door/Window Security Alarm - WiFi Enabled with Smart App** is an alarm system that will alert you via a free smartphone app when a door or window has been opened or closed.

- Part of our WiFi alarm system
- Controlled remotely via a free app (Android/iOS)
- Set monitoring times for sensors in-app (i.e only sound alarm notification when door is opened between 11pm - 6am)
- Multiple sensors can be used and easily added or removed from an existing set-up (up to 200)
- Wirelessly pair device to your standard router or Wi-Fi extender
- Alerts are sent to your smartphone or tablet device
- Lifetime Cloud service for the app provided free of charge

Customisable Alarms

Two types of alarms/notifications are available for all app users;

1. Notification + default notification sound (phone's default sound)
2. Silent notification

The app also has other key features regarding alarms and notifications;

- Precise details included with every alarm notification, giving details of alarm time, date, and location (if multiple sensors are used)
- Take photographs of your doors and link them to your alarms in the app (so when an alarm is triggered you can see which door)
- Create floor plans in the app for more complicated multi-sensor set-ups

Multiple Users

- One master user must be created, this user has control over when alarms/notifications are triggered
- Master user can then grant access for other users to receive notifications/alarms
- Each user can easily change the notification type for each alarm (see example below)

Notification/alarm created by master user = If the door is opened between 11pm and 6am

Notification for User A (master): Silent

Notification for User B: Loud alarm

App Compatibility & Requirements

- Works for the majority of iOS & Android mobile phones
- WiFi Connectivity: 2.4GHz only (practically all UK routers have 2.4GHz)

Battery & Power

- 2 x AAA batteries (not included)

- Low power consumption, typically battery life of 12 months
- Low battery and loss of signal alerts

Advanced Compatibility

- **WiFi modes:** 802.11a,b,g,n,ac
- **Wifi security:** WEP, WPA, WPA2, 802.1x

Other Features

- 4x Daily programmable device-disabled time periods
- Built-in reed switch and separate magnet
- App records last 30 activations with time and date

Contents

- 1 x Door Transmitter - Wifi Enabled
- 1 x Scotch 3m double-sided
- 1 x Instructions (including details on how to download the free app)
