**Price:** £33.00 incl. VAT You Save 12%

**Date:** 11/11/2019

**VAT Relief Eligible:** Yes

**Delivery:** £3.95 incl. VAT per order

Our **Standard Plus Toilet Seat** with improved design comes in a choice of 3 distinctive colours, both provide contrast alongside the whites of a bathroom or toilet.

- Bright contrasting colour; reminds people with cognitive loss of the purpose of the toilet/bathroom
- Can help reduce confusion and distress when visiting the toilet
- Lowers the chance of "accidents" in the bathroom or around the home
- Made from tecnoplast, a high-quality polypropylene that's hard-wearing and easy to clean

The red toilet seat is especially effective in providing orientation for those with dementia.

### Sta-Tite Fixings

- Sta-Tite fixings work brilliantly to secure the seat and ensure it never comes loose
- Easy-lift design allows the seat to be removed in a couple of clicks to facilitate thorough cleaning of all those hard-to-reach areas

Sta-Tite hinges are also used in airports, football grounds, and other high-usage areas to ensure they withstand the rigours of regular daily use in hospitals and care homes.

### Virtually Unbreakable

- Made from Tecnoplast™ material
- Superior durability

### New & Improved Design

We've now improved our best-selling seat with new machined metal hinges and the fit-and-forget Sta-Tite hinges, which are guaranteed not to come loose.

**Please be aware** that many of the "Standard Toilet Seats" sold online for people with dementia will be the previous design with inferior stability and durability.

### Combine with Dementia Signage

Our dementia friendly toilet seats in Red or Blue can be more effective when used in combination with our matching toilet sign in our Dementia Signage range.
