Delivery: £3.95 incl. VAT per order

The **MemRabel 2 Calendar Clock with Audio & Visual Reminders** is an innovative and completely customisable device that is proving to be a very popular memory aid.

- Displays reminders alongside photos, videos, or audio recordings
- Large and clear display
- Choice of time/date display (can be changed at any time)

The MemRabel 2 provides a choice of time display styles with a selection of background colour options to improve visibility for people with poor sight and cognitive ability.

Playback of custom alarms requires an SD card or USB Flash Drive (not included)

Time / Date Display

The MemRabel 2 also has 4 different time display options, to help people who may be confused by looking at a typical clock;

Time & Date Mode	Information Displayed	Example
Option 1	Day & period	Friday Morning
Option 2	Day & period 4 icons (1 per period)	Friday Morning <i>Sunrise graphic</i>
Option 3	Day & period of day Time (AM/PM)	Friday Morning 10:05 AM
Option 4	Day & period Time (AM/PM)Date	Friday Morning 10:05 AM 13 May 2016

Display Colours

There are four backgrounds and text colour options available;

- White background with black text
- Black background with yellow text
- Blue background with black text
- Blue background with white text

Reminders

Customisable - The reminders can be set as a single alarm (once only) or for daily, weekly, monthly or specific date playback. MemRabel 2 allows a family member or health visitor to set daily time reminders with voice and picture or video reminders. Up to 20 reminders can be set for Daily, Weekly, Monthly, and Yearly playback.

Usability - At the time of the alarm, the selected voice reminder with accompanying screen graphic or video is played back on the screen. Voice reminders can be set by a number of repeats or by a timed constant repeat interval from 5 mins to 25 mins.

Many preinstalled options - MemRabel 2 is supplied with pre-installed audio, picture, and video reminder files that are easily selected to create the majority of typical daily reminder requirements.

Easily personalised - Personal reminders can be created with audio (voice) and photograph, or a video which can be added to the MemRabel library or selected as alarms from the MemRabel 2 SD card slot or one of the USB ports (standard or mini).

This device is sometimes referred to elsewhere, as the MemRabel 2 Dementia Clock.
