The **Doro Secure 580 IUP** highly durable easy to use big button mobile phone is designed for people who live alone and may be at risk.

The Doro Secure 580 IUP mobile phone provides a wide range of safety features to make your friends and family aware of what you are doing and where you are. It can automatically alert a trusted friend or relative in the event of a fall or accident to ensure you can be found in an emergency.

The simple and easy to use keypad features four large speed dial keys which allow you to get in touch with the press of a button. Advanced features make it possible to call for help, even if you can't.

Not only is the Doro Secure 580 IUP exceptionally easy to use, it also features a highly durable design making it a dependable device in almost any situation. It is well protected from dust and splashes to meet the internationally recognised IP54 standard.

You can also assign a trusted relative to access and maintain your contacts over the internet using the Doro Experience Manager.

### Comparison - Doro Secure 580 and Doro Secure 580 IUP

The Doro Secure 580 with IUP (this telephone) **does have** IUP, Isolated User Protection. If you do not require IUP we recommend visiting our Doro Secure 580 product page.

*What is IUP?* IUP can automatically alert someone in the case of a fall or a motionless state. The Doro Secure 580 with IUP provides excellent isolated user protection through man-down, motionless and self-activated alert functions.
