Our **Extra Care Interchangeable Bedroom Sign** is designed to be dementia-friendly as opposed to dementia-specific.

- Appropriate for homes and facilities where dementia is not the determining factor but clarity and personalisation are important, such as an Extra Care home
- Introduces some of the dementia-specific features whilst retaining a unique "up-market" style
- Uses the durable non-reflective qualities of our signage
- Tactile and hygienic and allows for that important element of personalisation
- Easy to clean and class 1 fire-rated

Interchangeable

Our Interchangeable range of signs allows each sign to be easily personalised, depending on the current resident of the room.

- Space for name and photograph of person currently occupying the bedroom
- Names and photographs are easily inserted into the sign by your staff

Customisation

- Room numbers
- Optional coloured indicator to assist the emergency services in care of a fire

Contact us for more information on alternative colours, finishes, or for any other customisation required.
