**Delivery:** £3.95 incl. VAT per order

The **AmpliDect295 SOS Pro with Answering Machine & Pendant** is a simple and easy to use cordless telephone with an SOS pendant for emergencies.

- DECT compatible (can be used alongside any other DECT compatible cordless phone)
- Hearing Aid Compatible (HAC)
- Loud adjustable receiver volume (up to 30dB)
- Hands-free speaker phone function
- Large keys for easy use
- SOS Pendant to answer incoming calls, make outgoing calls, and dial an emergency contact number

### SOS Pendant

- 5 buttons; volume +, volume -, 2 one-touch memory buttons for pre-programmed numbers, and 1 SOS/answer incoming call button
- Adjustable speaker volume (5 levels)
- Adjustable ringer volume
- Hands-free operation
- Signal tone when the SOS pendant is out of range of the telephone
- Visual battery level indicator (red LED)
- Visual indicator for incoming calls / during a call (green LED)

The SOS pendant is a simple yet effective device that can be carried around the home. This is ideal for anybody who is prone to falling or fears becoming stuck in one room, as it can dial out at the touch of a button.

It includes volume control, with two one-touch memory buttons for pre-programmed numbers. This means that a vulnerable person can call for help after a fall or if injured and unable to get to the telephone, helping ensure that nobody needs to struggle without being able to seek help.

Using the pendant:

Press the SOS key on the pendant to enter the emergency calling sequence from the SOS 1 number to SOS 4 number (cycling 3 times). A call will be first dialed to the SOS 1 number.

If the SOS 1 number does not answer in 60 seconds, the call will be made to the SOS 2 number, and so on.

### Calling / Talking

- Phonebook - up to 50 numbers
- Redial function for last 10 outgoing calls
- P/T dialling mode
