Our **Grab Rail and Toilet Roll Holder Combination** has an innovative design that combines a sturdy grab rail with a toilet roll holder.

- Combining the grab rail and toilet roll holder saves space
- Ensures the toilet roll is in a convenient position
- Provides a suitable point of leverage for getting on and off the toilet
- Power-coated steel grab rail with satin finish, available in blue or red
- 300mm long with a 35mm diameter tube

Standard toilet roll holders are often used as an aid to standing up from the toilet, but as they're not designed for this purpose this often leads to damage the toilet roll holder or the wall, or in some cases, it may result in a fall.
