The **Call Blocker CS600 Mobile Phone** from CPR is designed to safeguard the most vulnerable while maintaining their active independence.

- Modern and functional phone with innovative features
- Black list - Allows users to block nuisance callers at the touch of a button
- White list - Program the CS600 to only allow certain numbers through
- Large colour screen with photo contacts
- Intelligent SOS emergency assist
- Free SIM with £3 credit

Call Blocking:

- CS600 has a built-in Blacklist and Whitelist function.
- The Black List function allows users to block nuisance callers at the touch of a button.
- The White List function can be programmed to allow only certain numbers through (a great feature for vulnerable adults).

Whitelist Mode

- Whitelist mode allows you to enter a list of specific telephone numbers
- Only calls/texts from these numbers will be allowed through to the phone, all texts/calls from numbers that are not on this list will be blocked
- Useful for vulnerable individuals to limit contact to a small number of friends/family/professionals

Blacklist Mode

- Less restrictive than Whitelist (see above)
- All calls/texts will be allowed, except numbers that are in the blacklist
- Useful to block known nuisance calls or any other number from making contact

Photo Contacts:

- CS600 features a large colour screen and photo contacts.
- Contact photos are displayed for incoming calls
- The photo contacts feature allows the user to dial using the image of a person. (useful for the visually impaired)

Intelligent SOS Emergency Assist:

The emergency assist SOS key sends an SMS message to all contacts in the emergency number list. (Saying: Emergency, Call Me). Once sent, the phone calls the primary number in the list. If unanswered the phone will rotate through the numbers until answered.
