The **Object Finder and Key Locator** is an affordable gadget that helps find lost items.

- Useful for finding lost items around the home; such as keys, walking sticks, handbags, etc
- Keyrings included and also velcro dots to attach beeper fobs to objects if required
- Helpful for people with dementia, the elderly, or visually impaired
- Unused locators can be switched off when not in use
- Range of 50m and 75dB volume

People in the early stages of dementia frequently mislay items around the home causing frustration and disappointment. This affordable gadget offers a simplistic solution.

How to use

1. Attach locator fobs to items that you want to track
2. When you need to find an object press the corresponding letter on the remote control
3. The locator fob (attached to lost item) will make a loud beeping noise
