The **Jigsaw Puzzle with 35 Pieces Winter Snow** was designed for people in early-mid stage dementia, giving the satisfaction of completing a puzzle unassisted.

- Puzzle portrayed beautifully by painter Trevor Mitchell
- Contain many features and talking points for after completion
- Durable Material - Tough plastic, easily cleaned, and infection control compliant
- Guided completion - Box frame helps to assemble the pieces and prompt questions

How it works

All of our puzzles have been designed and tested to help users in the early to mid-point of their dementia journey complete a puzzle unassisted and the Winter Snow puzzle is no exception.

- One of the more challenging puzzles in the ActiveMinds range
- The size and shape of each piece, the colours used and the unique collection of images have all been designed and tested to help users in early-mid stages complete the puzzles unassisted
- Images have been carefully chosen to allow for visual impairment and to spark memories and conversation once completed

Winter Snow

It is the start of the Christmas holidays so plenty of time for the children of this northern town to play in the snow.

The excitement of days spent building snowmen, snowball fights and sledging kept the children entertained for hours.

This painting captures both the Christmas spirit, and the artist Trevor Mitchell's enthusiasm for vintage cars, British countryside, and rural-life.

Questions to ask

- What does this picture remind you of?
- What are the best things to do in the snow?
- What are some of your favourite Christmas memories?
- Do you like the winter?
