The **Multi-Function Universal Transmitter for MPPL Range** is a high-performance radio transmitter, which can be used in conjunction with pressure mats, magnetic door contacts and a variety of our care sensor products.

- High-performance radio transmitter that can be paired with a variety of sensors
- A sensor is connected to the NMDTXM via the jack socket
- Sends a signal up to 100m to a compatible pager (sold separately), or be connected to any universal monitoring solution
- Sensor also required (not included)

Compatibility

For installers, the transmitter provides universal solutions for wander detection, bed and chair fall prevention/reduction and can be connected to any alarm devices having a volt-free output, configurable for N/O or N/C trigger operation.

Battery & LED

- Powered by 2 x AAA batteries
- 12 Month typical use before battery change
- Low battery warning LED with transmission message
- System status LED

Compatible Sensors & Options

- Bed leaving alarm (with 15-minute alarm delay option)
- Chair leaving alarm (with 15-minute alarm delay option)
