The **Filler Tray for Pivotell Advanced** has been developed to assist pharmacists checking dispensed medication when filling medication trays.

- 28 section tray for Pivotell advance dispensers
- Helps with filling a dispenser and reduces the chance of doses being mixed
- Please note: this is **not** a spare tray kit

Filler Trays are available for pharmacists, family members or carers to fill Pivotell Automatic Pill Dispensers at the pharmacy or at home.

\*Design Registration no. 002551416

How it works

- Each medication dose is initially placed in the filler tray rather than in the dispenser medication tray
- The doses can be clearly seen by both the technician and/or pharmacist carrying out the pharmacy checks
- Doses can then be pushed into their respective compartments in the medication tray using a suitable tool such as a spoon or spatula
- The filler tray can then be removed and the dispenser tray can be placed in the correct position in the dispenser
