The **Solar Atomic Talking Watch - Expanding Bracelet** uses radio signals to ensure that it always displays the correct time, and pushing both buttons enables a voice announcement of the time & date in a clear English accented voice.

- Solar powered watch
- Clear analogue design with 30mm watch face diameter
- Automatically adjusts between summer and winter daylight savings
- Time stated in AM/PM format for easier understanding of the current day period
- Optional alarm & low battery warning

Date announced in the format of *day, month, date, and year*; for example "Wednesday, August 26th 2015".

### Radio Controlled Time Accuracy

The radio controlled time feature of this watch will ensure the correct time is displayed when used in the UK, Germany, USA, or Japan. The radio controlled feature can be turned off and the time can be manually set for any other countries.

### Solar Powered

This watch is solar powered and does not require replacement batteries, as we can't guarantee the sun will always be shining the watch can also be recharged using any desk light/lamp.

### Dimensions

- **Case Diameter:** 40mm
- **Case Thickness:** 14mm
- **Band Width:** 19mm
