

## GSM Elderly Monitoring and Notification System

**Code:** 1005384

**Price:** £130.00 incl. VAT

**Date:** 24/06/2020

**VAT Relief Eligible:** No

**Delivery:** £3.95 incl. VAT per order

The GSM Elderly Monitoring and Notification System allows a distant carer to check on the movements throughout the home of a person who may be at risk from falls, not eating or drinking as they should or leaving home at unusual hours.

### Smart App

The dialler is set up mainly via a free App for iOS or Android and allows activity monitoring to be reported to your Smartphone.

You can use the two motion sensors to check that a person is moving around the house within programmable times: Are they out of bed? Entered the kitchen between 10am and 12pm.

### Features

The dialler includes a help call pendant that will send text messages and work through an emergency call list if help is required. The dialler requires a mobile SIM card (**Not** Supplied), either Pay As You Go or Contract.

Other features include battery backup, two-way voice intercom, call dialler to listen in, SOS button call, home temperature and mains power fail alerts.
