Price: £80.40 incl. VAT

Date: 13/06/2021

VAT Relief Eligible: Yes (£67.00 with VAT relief)

Delivery: £3.95 incl. VAT per order

The **Bed Occupancy Alarm Mat with Transmitter** is an ideal way of keeping track of when a person gets out of bed.

- Part of the MPPL system
- Allows a carer to be alerted/alarmed when a person leaves their bed and can help reduce the risk of falls and accidents (pager required)
- Record an audio message of up to 15 seconds, that's played every time someone leaves the bed (optional)

Bed Leaving Sensor Mat

- Thin and lightweight Bed Sensor detects exit from bed and sends alarm to pager
- 15-minute delayed alarm (optional) to accommodate bathroom visits etc
- Pager low battery alert signalled by red flashing LED, repeated every 2 weeks before battery failure
- Dimensions: 750 x 450mm

CTM3 Voice Alert Audio Alarm

- Supplied with slot-in stand for easy mounting
- Recording triggered when movement from the bed is detected
- Repeats for 5 minutes, or until dismissed at the alarm
- If pressure is re-applied, voice message halts and monitor resets
- Clear reset button for one-press recording cancellation
- Voice alert, tone only, or silent options
- Anti-tamper panel screws in place
- Low battery signalled by neon blue flash every 3 hours, repeated for 2 weeks before battery failure
- Nurse call relay output option for care homes
- Supplied with 3 x AAA batteries

What if I don't want the voice alert function?

The voice alert audio alarm serves two purposes;

1. Transmits the alarm from the pressure mat to the pager
2. Plays a prerecorded audio message

Due to no.1, the voice alert audio alarm is a required component of this kit, however, if you do not require an audio message to be played there is a silent option available for the voice alert function.

Contents

- 1 x Bed leaving sensor mat
- 1 x A voice alert audio alarm
