The **Wireless Flashing Light Door Alarm** is a simple to install door security solution.

- When opening the door or window, an alarm is transmitted to the receiver, which activates the flashing lights and audio alarm
- The alarm call station can be easily turned on/off using a switch on the device
- Up to 5 magnetic switches can be paired to the alarm receiver
- Each switch will produce a different flashing light to identify the open door or window

Uses Include:

- Dementia and elderly wander detection
- General door and window security
- Small shops and stores entrance doors
