The **Simple Music Player - Walnut** is an easy-to-use MP3 music player for individuals with impaired cognition, memory loss, or Alzheimer's.

- The simplest of operation, play music by lifting the clearly indicated lid, close the lid to stop
- Controls have been demonstrated to be highly intuitive, requiring no prior knowledge or explanation
- Volume set by family, friends, or carers, so it cannot be accidentally changed
- Music uploaded via USB to any Windows, Apple, or Linux PC
- Capacity: 4GB (approx 1000 songs)

How to use the Simple Music Player - Walnut

1. To start playing music, simply lift the lid
2. Underneath the lid is one large button that can be used to skip track (optional)
3. Close the lid to turn the music off

The music will continue from where it was last stopped.
