The **Nature Explorer - Winter** is a book that contains a range of photographs to highlight the seasons, great to take on your next walk or just spark conversation.

- Designed to encourage people to notice and enjoy the seasons whilst on a walk
- It is best used to search for and notice a range of seasonal reminders

For inspiration each page shows a range of potential objects you might discover - you might even find something else!

How It Works

Plan a short walk near you. It might be a local park, area of natural beauty or it might be in your garden.

- Firstly, look through the book to familiarise yourself
- Whilst walking, search for some of the seasonal reminders inside the book
- When you do think you have spotted something, take a look inside and check it is the same
- If you want to know the names of the flowers/trees, look at the back page
- Inside there are also some helpful questions to ask along the way
